

# Introduction

## 1.1 Overview

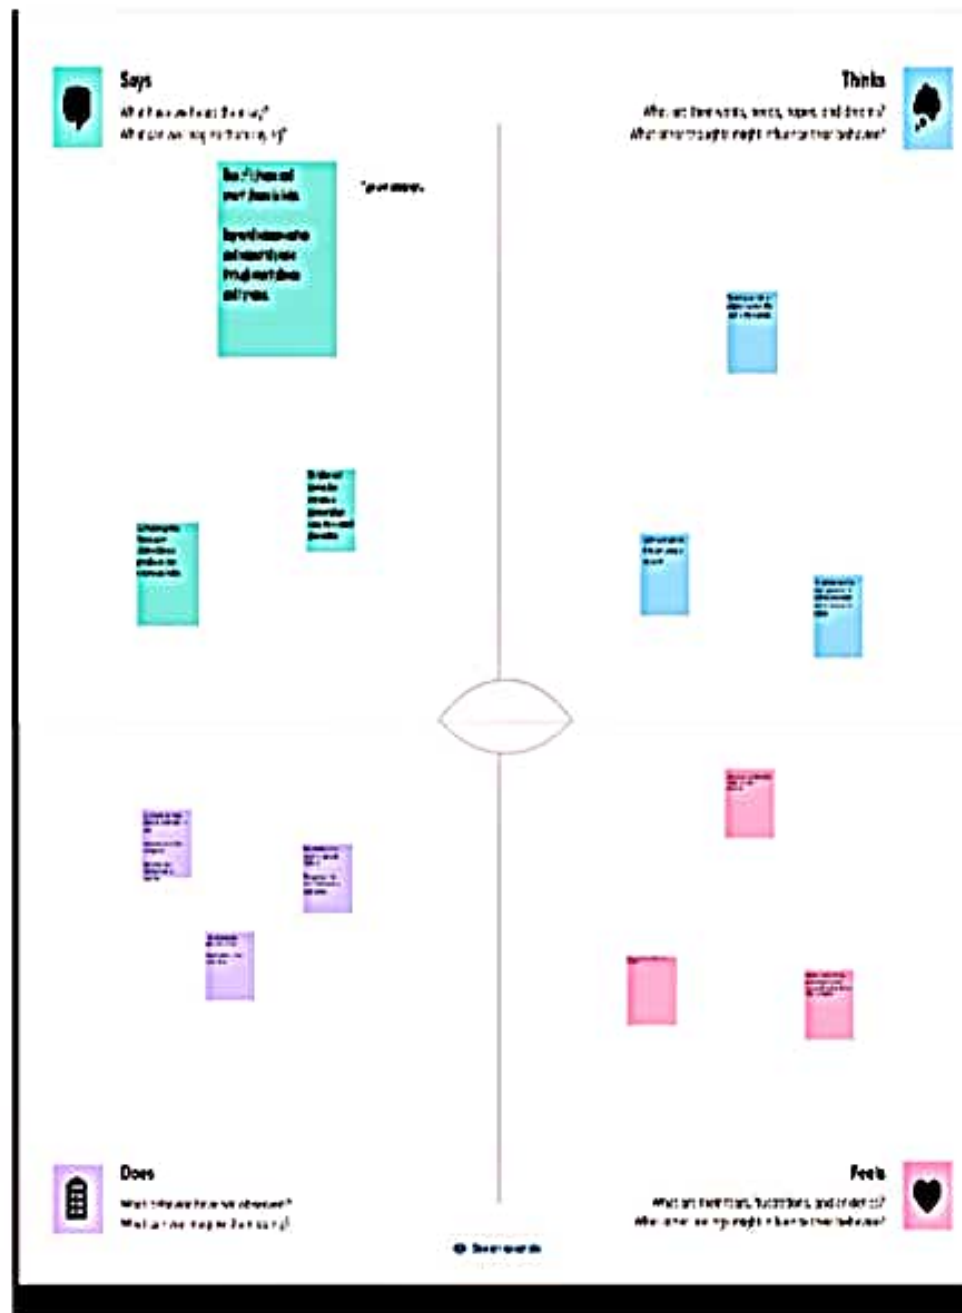

My project is about irevolution-A data driven exploration of Apple's Iphone Impact in India. This type of information is inside my project

## 1.2 Purpose

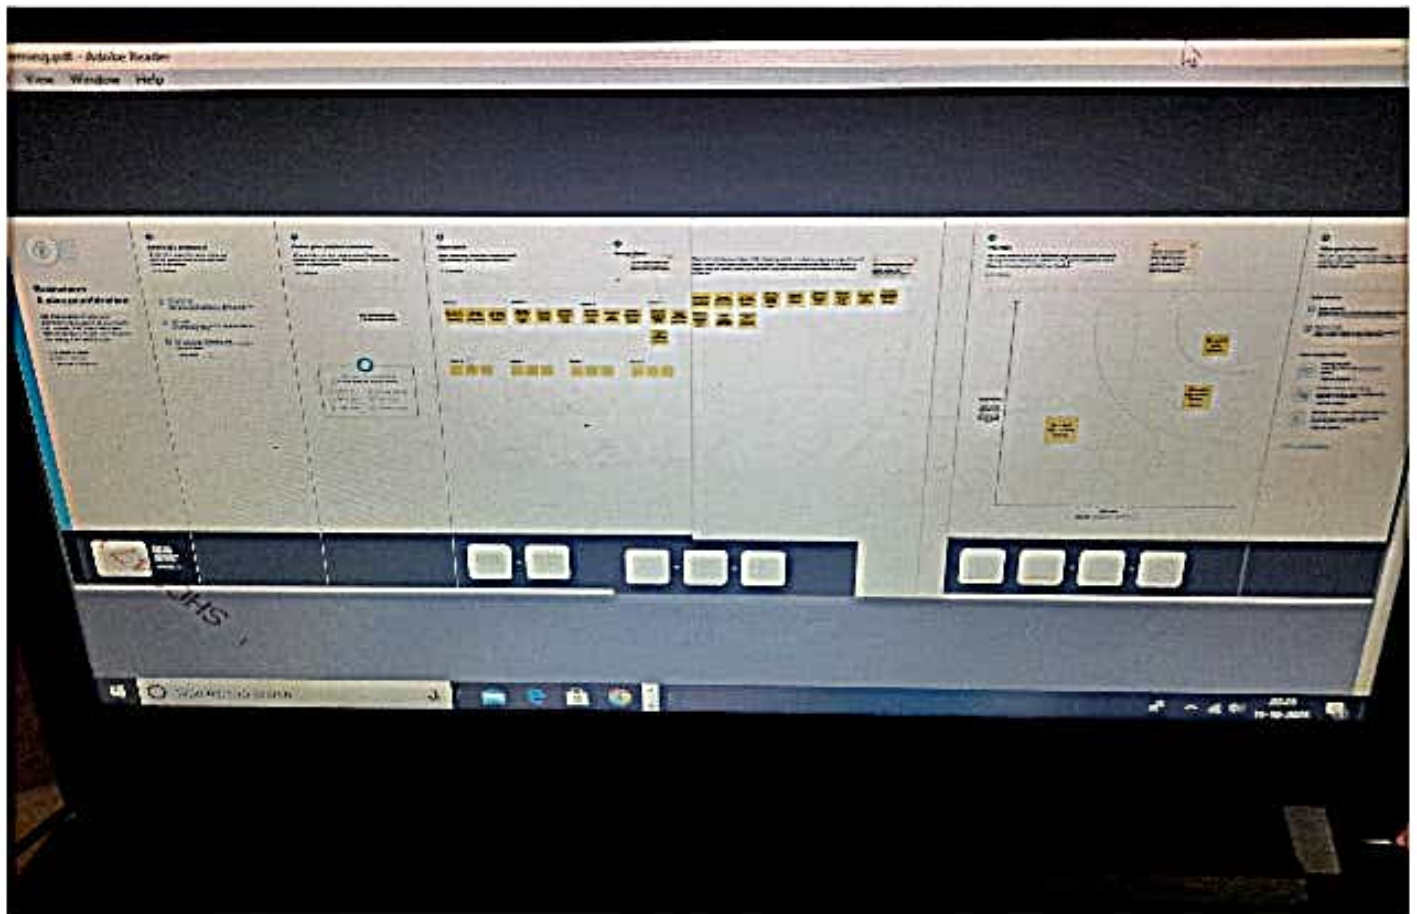

From this project me and my team mates learned many things about Iphone revolution. It's very helpful to us. I gathered many informations about I phones

## 2. Problem definition and design thinking

### 2.1 Empathy map

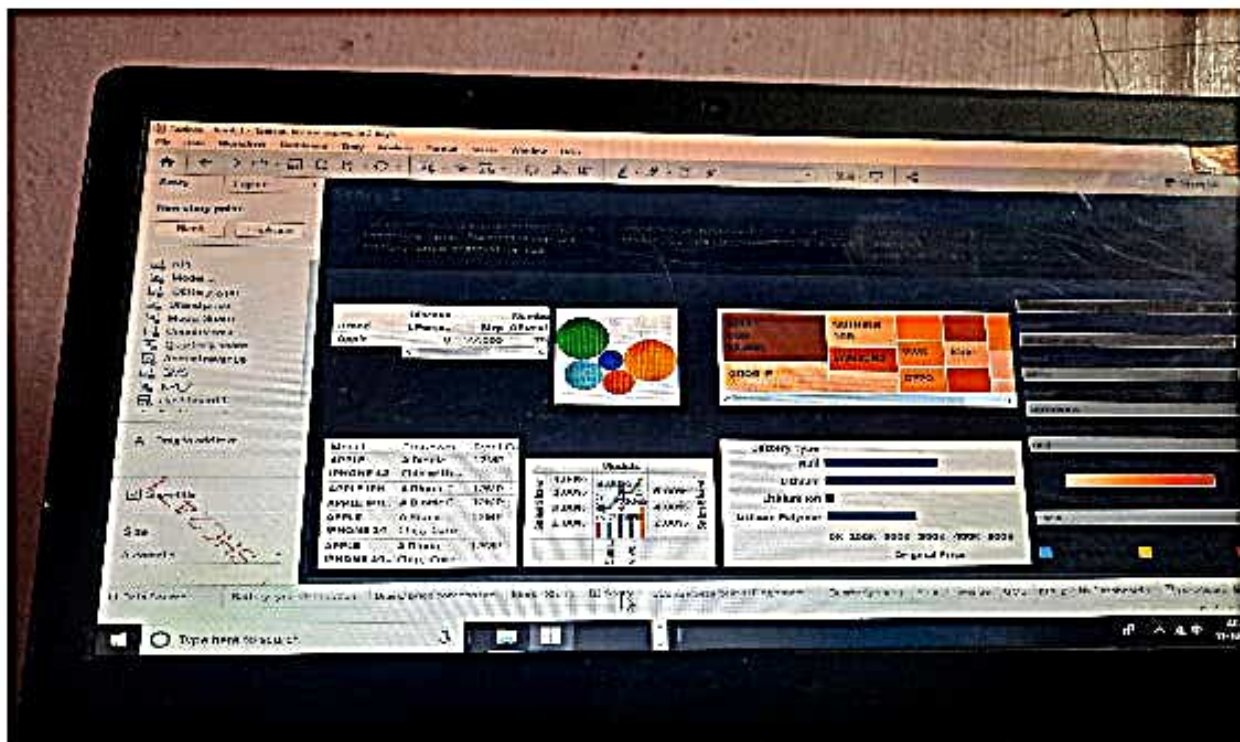

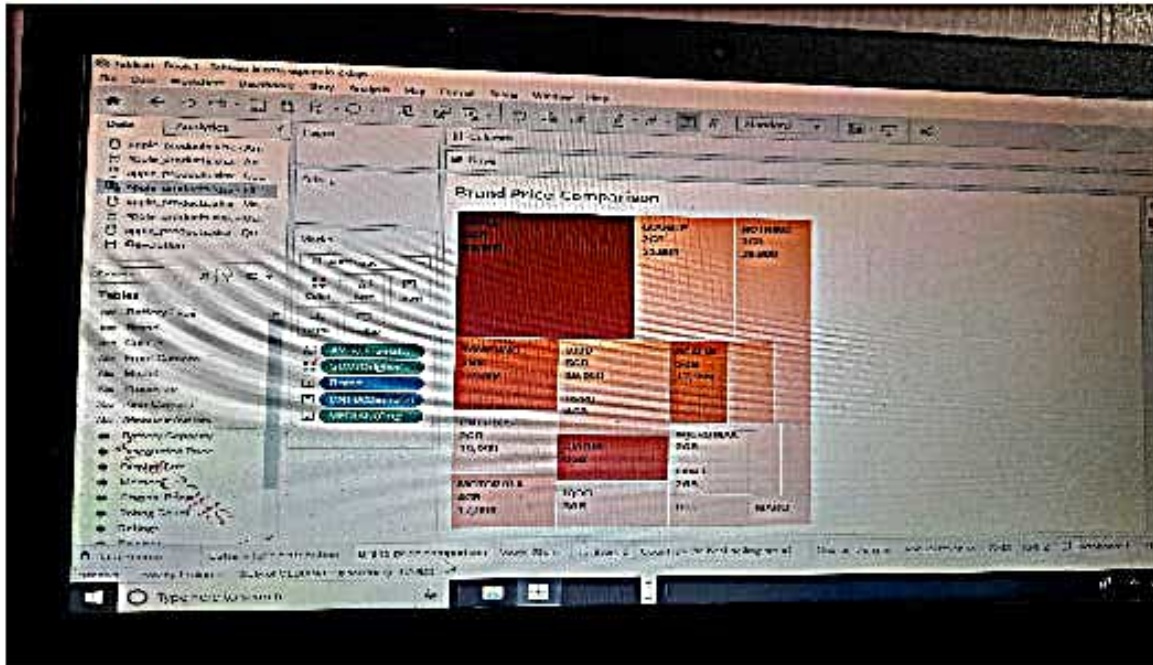

## 2.2 Ideation and brain storming map

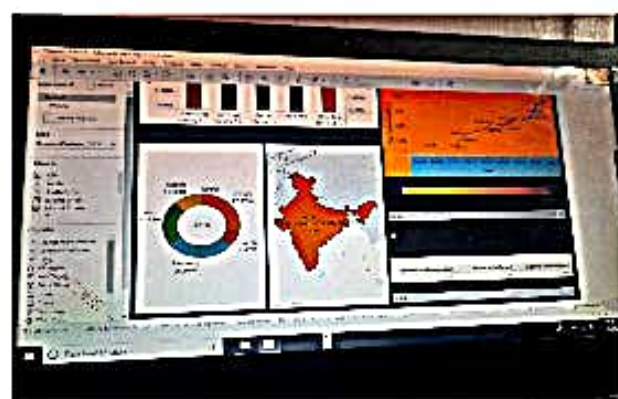

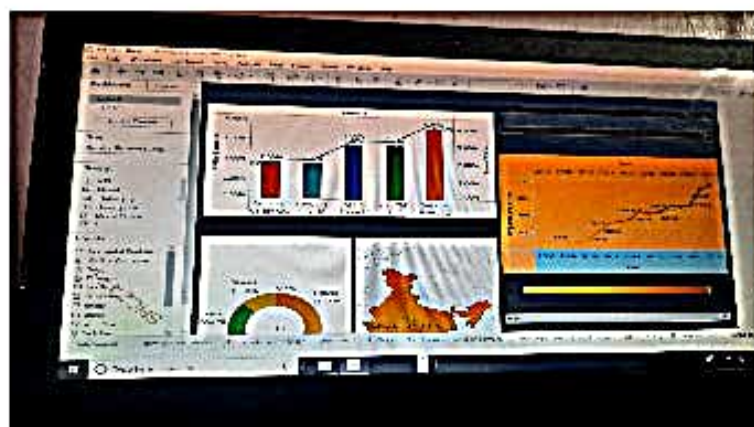

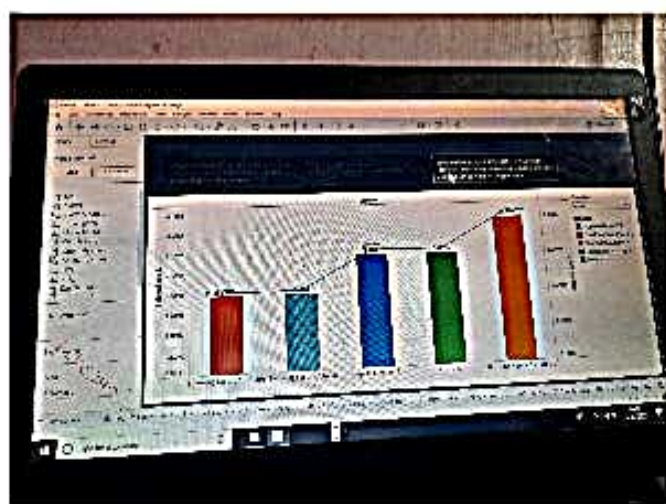

# 3. Result Final findings and output

### 3. Advantages and Disadvantages

#### Advantages

This is very useful to us. It will be useful to our future also. We will achieve something through this.

#### Disadvantage

It's easy to confuse everything. And I think this only.

## 5. Applications

Everywhere they are using iPhones. Most of them are using iPhone that through this project it will apply in the future

## 6. Conclusion

It will help most of the people through this project. In my point of view it's very useful and thank you.

## 7. Future scope

In future we make and efficient projects like this. And collect more information
